Indiana State Department of Health
2 North Meridian Street 6A
Indianapolis, IN 46204

“The class was very thorough for childhood immunizations and provided excellent resources to get further information.”

“This was a wonderful class. I think all nurses who give immunizations should have to attend this class.”

“Speakers were very good and very good at explaining things if anyone had a question—Thank You!”

“Helped reinforce our high goals of patient/parent information, proper immunization schedules, vaccine safety, and general immunization info.”

Comments by Attendees

“Information was current, documented, and relevant to current practice.”

“The whole presentation was excellent; the speakers accurately answered questions and they made it fun.”

“Gosh, I didn’t realize there was this much I needed to learn – thanks!”

“Even though I have been in the field over 14 years, there was info that I learned or heard about for the 1st time.”

“I wish providers were required to attend this immunization workshop at least once a year.”

“The presenters were passionate – the audience was involved.”
